RE: BeroXpert Washer with Outsulation® System

Dear Craig,

Thank you for sending the information on the Original PB washer from BEROXpert North America.

Please note that the issuance of a Dryvit warranty on the Outsulation System will not be affected by the use of these washers on a project.

As you know, Dryvit does not manufacture or sell washer plates that are sometimes used to attach the insulation board and the use and performance of the plates and fasteners are the responsibility of the supplier and specifier to ensure that they are appropriate and fit for purpose. As such, Dryvit does not evaluate nor approve such components, since they are not Dryvit products nor covered by the Dryvit warranty.

We assume BEROXpert North America has documentation of file that can be supplied to customers as required.

Please feel free to contact me if there are any questions or additional information is required.

Best Regards,

A handwritten signature in black ink, appearing to read "Roland Serino".
